

Experiment (1)

**Practical science exam
Primary 4**

Exp (1)

In front of you some tools ,examine them then answer:

- 1-The name of tools -----
- 2-It is used to measure the -----
- 3-The unit used in it is -----
- 4-Matter is any thing that has ----- and -----
- 5-Matter exists in three states which are ----- , -----
and -----

Experiment (2)

**In front of you some element ,examine them then classify it
into solids , Liquid and gas**

(Copper – Air – Ice – Milk – sugar –water – Oxygen – Iron –
Juice – Carbon dioxide – Wood)

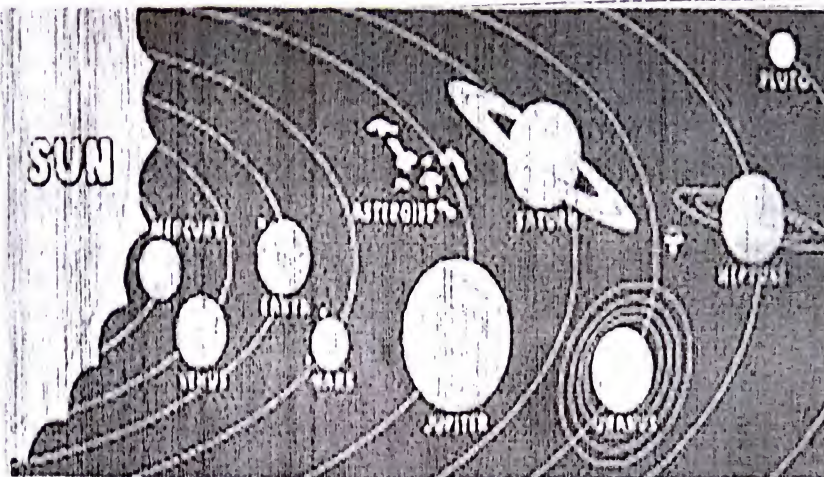

Solid	Liquid	Gas

Name/.....

Class /.....

Setting number /.....

Experiment (1)

Examine the model in front of you then answer

- 1-The name of model -----
- 2-It consists of the ----- and eight -----
- 3-The nearest planet to the sun is -----
- 4-The farthest planet is -----
- 5-Earth planet lie between ----- and -----
- 6-The smallest planet is -----

Experiment (2)

In front of you source of heat ,Ice ,beaker examine them then answer:

- 1-Melting is the change of matter from ----- state into -----
- 2-Evaporation is the change of matter from ----- state into -----
- 3-Condensation is the change of matter from ----- state into -----
- 4-If you heat ice it changes into ----- but when you boils water it produce -----

Name/.....

Class /.....

Setting number /.....

Practical science exam
Primary 4

Exp (3)

In front of you some element ,examine them then classify it into solids , Liquid and gas

(Copper – Air – Ice – Milk – sugar –water – Oxygen – Iron – Juice – Carbon dioxide – Wood)

Solid	Liquid	Gas

Practical science exam
Primary 4

Exp (2)

In front of you some tools ,examine them then write the name of each tools and its uses

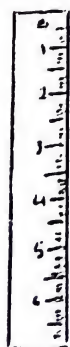

No (1) point to ----- and its used to measure -----

No (2) point to ----- and its used to measure -----

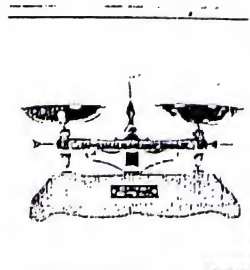

No (3) point to ----- and its used to measure -----

2-Matter is any thing that has ----- and -----

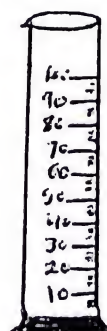

3-Matter exists in three states which are ----- and -----

(1)

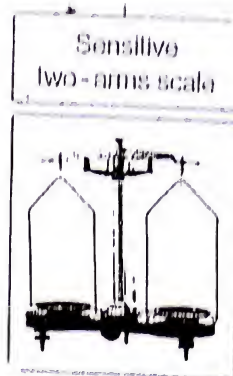

(2)

(3)

**Practical science exam
Primary 4**

Exp (1)

In front of you some tools ,examine them then answer:

- 1-The name of tools -----
- 2-It is used to measure the -----
- 3-The unit used in it is -----
- 4-Matter is any thing that has ----- and -----
- 5-Matter exists in three states which are -----, -----
and -----

**Practical science exam
Primary 4**

Exp (4)

**In front of you some element ,examine them then classify it
into Metals and non metals**

(Copper – Sulphur – Gold – Nitrogen – Silver – Oxygen – Iron
Bromine – Mercury)

Metals	Non- metals

- 1-The positive poles of battery is made of -----
- 2-the liquid metal is ----- but non-metal
liquid is -----
- 3-Elctric wire are made up of -----
=====
